

# ASLIDDIN ABDUJABBOROV

## DJANGO BACKEND DEVELOPER

I am an experienced Django backend developer looking for a full-time position in backend programming where I can apply my knowledge and skills to continuous improvement.

---

### PORTFOLIO

- **Apply system:** <https://qabul.xiuedu.uz>
- **Tuit karshi branch website:** <https://tuitkf.uz>
- **International Innovation University website:** <https://xiuedu.uz>

---

### EDUCATION

#### BACHELOR

A student of software engineering  
TUIT Karshi branch | 2020 - 2024

#### DJANGO BACKEND PROGRAMMING COURSE

In the online training center "Fulfil Education".  
From March 2|2022  
Until September 1|2022

---

### EXPERIENCE

#### BACKEND DEVELOPER

TUIT Karshi branch - 2022-2023

During my work at the TUIT Karshi branch, the branch website was completely updated. Various additional features have been added to the site using the Django framework!

#### BACKEND DEVELOPER

International Innovation University - 2023-Until now

Currently, I have developed the official website of the university, the admission system for applicants and the electronic library for students with the team. I mainly used the Django framework and the Django rest framework for the Electronic Library.
